Instructions for Authors

The Editorial Boards of the Upper Silesian Museum journals and editions has accepted and upholds the standards of publication ethics which are in line with COPE Guidelines (COPE – Committee on Publication Ethics). Natural History Monographs of the Upper Silesian Museum series is published irregularly online by the Upper Silesian Museum in Bytom.

It is an international journal devoted to all aspects of natural history (in broad sense). Monographs are submitted with the understanding that they have not been published elsewhere and are not being considered for publication elsewhere (This restriction does not apply to abstracts published in connection with meetings). Prior to acceptance for publication each manuscript is reviewed by anonymous referees.

Authors are requested to adhere to the instructions below concerning preparation of the manuscript; manuscripts deviating from the required format will be returned for revision.

Acceptable languages for publication are English or Polish. Authors whose mother tongue is not the language of the submitted paper are advised to have the manuscript linguistically reviewed before submitting it to the editor. Poorly written manuscripts will be returned without further review.

Electronic submission of text and figures. After all the editorial work is completed and revisions have been made by the Author, the final electronic version of the text and illustrations should be submitted on PC-compatible CD/DVD disc to the Editors.

Text. Please submit to one of the Editors electronic version of the manuscript. Use only MS Word compatible word processors working in a Windows environment (*.doc format) and convert text to Rich Text Format (*.rtf) format (in this case, both converted and native format files should be sent). The body text should be typed in 12 point Times New Roman font, 1.5-line spacing, with captions to tables and figures.

- **Title page.** This should include title, authors, institutions, address of the corresponding author (including e-mail address, as applicable), key words. The title should be concise but informative, and, where appropriate, should include the names of families and/or higher taxa covered in the paper. When submitting a paper with multiple authors, one author must accept the responsibility for all correspondence.

- **Abstract.** The abstract should be informative, concise, and in a form that is fully intelligible in conjunction with the title. It should not exceed 200 words and should not include citation of references. Names of new taxa and an indication of nomenclatural acts (synonymies, etc.) should be included.

- **Table of contents.** For all papers authors are requested to submit a "Table of Contents".

- **The standard arrangement** for the main paper is as follows: Introduction, Materials and Methods, Results, Discussion, Acknowledgements, References.

- **References.** References in the text should be cited: Aspöck (1991); (Aspöck 1991) or Aspöck & Hölzel (1990: 231); dealing with two authors use “and” (“et” only in the case of authors of scientific names in zoology); for references with more than two authors use the form: Mansell et al.

References should be listed alphabetically with book and journal titles given in full. Use small letters a ... z to indicate references published by the same author(s) within one year. For papers published using an alphabet other than Latin but having a summary, title, or abstract in Latin alphabet, cite this “original” translation. If there is no such translation, use an English translation in brackets [] with an indication of the original language.
